Incharz to Develop Exclusive EV Charging Stations for 3ECO, signs MoU

New Delhi: Incharz, an EV Charge Point Operator has signed an MoU with 3ECO, a prominent manufacturer of L-3, L-5 cargo vehicles and an EV Cargo Fleet Operator to develop **exclusive EV charging stations** for 3ECO for their entire fleet pan India. This initiative aims to establish a nationwide network of EV charging infrastructure, strategically positioned to meet the charging requirements of 3ECO's vehicle fleet. The EV charging stations will charge approx 200-300 EV cargo vehicles per day. By targeting 1000 of 3ECO's cargo vehicles for charging by the end of 2024, Incharz will play a significant role in accelerating the adoption of EVs, advancing green mobility and contributing to a more sustainable future.

3ECO will provide fleet hubs to Incharz for setting up EV charging stations. Incharz will be responsible for designing, installing, operating, and maintaining electric vehicle charging stations at various locations throughout India. The stations will feature cutting-edge technology to facilitate efficient charging. Moreover, they will support multiple charging standards and be compatible with various electric vehicle models, ensuring accessibility and convenience for all capacities

Neeraj Gupta, AVP Operations, Incharz commented, we are thrilled about our partnership with 3ECO. Incharz takes pride in its innovative legacy in EV charging and promoting a greener world. Through our collaboration with 3ECO and in light of their ambitious plans, we solidify our dedication to advancing innovation and sustainability in the evolving realm of electric mobility. This partnership also signifies our strategic pivot towards
